TUESDAY, AUGUST 1

12:00 P.M. - 2:00 P.M.

COMBINED AWE ADVISORY COMMITTEE MEETINGS & WORKING LUNCH ROOM 210

After a lively conversation about climate change last year, we're moving to action mode. Join this working lunch to catch up with fellow AWE committee members and get creative through an activity that leverages insights and perspectives of all three AWE committees. We'll work to build a prototype of a resource that demonstrates how water efficiency is a critical strategy to both adapt to and mitigate climate change. Help identify the key connections, make a compelling case, and create the next steps that each committee can work on to bring this resource to life. With more attention and funding going to climate change-related efforts, let's work together to demonstrate why water efficiency and conservation strategies are fundamental to tackling climate change.

2:00 P.M. - 4:30 P.M.

PRE-SYMPOSIUM WORKSHOP AWE MEMBER TOOLS & RESOURCES TRAINING ROOM C50

Bring your laptop for this hands-on, pre-Symposium workshop, where you'll learn about all the Alliance for Water Efficiency member resources. The main focus will be on the AWE Conservation Tracking Tool, what is possible with this tool, and a discussion of metrics. You'll also get exposure to the rest of the AWE core resources and member-only offerings and participate in a conversation to inform which tools and resources AWE should invest in next.

2:30 P.M. - 5:30 P.M.

AWE BOARD OF DIRECTORS MEETING ROOM 210

The AWE Board of Directors will meet for their quarterly scheduled meeting in person. This meeting is only open to AWE staff and members of the Board.

6:15 P.M. - 8:30 P.M.

WELCOME RECEPTION OFF-SITE

We invite you to join us for a social event to kick off the Symposium! The evening will consist of a complimentary water taxi ride alongside the scenic Chicago River, which offers gorgeous views of downtown. The water taxi will take us from Willis Tower down to Navy Pier, where guests can enjoy an open bar at the Billy Goat Tavern (700 E. Grand Ave, Chicago, IL 60611).

There will be two meet-up times to allow for more folks to join us! The first group headed to Navy Pier will meet at the Willis Tower at 6:15 pm, and the second group will meet at 6:45 pm. Symposium guests will have access to a complimentary open bar at Billy Goat Tavern from 7:00 - 8:30 pm.

**Please note that the water taxi service will not be running after the welcome reception, so guests will need to plan to take a ride share or public transportation back to their respective hotels.*

FULL PROGRAM & SESSION DESCRIPTIONS

WEDNESDAY, AUGUST 2

8:00 A.M. - 9:00 A.M.
REGISTRATION & LIGHT BREAKFAST LOBBY

9:00 A.M. - 9:30 A.M.
WELCOME PLENARY AUDITORIUM

SPEAKERS:

- Ron Burke, President & CEO, Alliance for Water Efficiency
- Mary Ann Dickinson, Former President & CEO, Alliance for Water Efficiency

**This session is sponsored by Gold-Level Sponsor, Metropolitan Water District of Southern California.*

9:30 A.M. - 9:45 A.M.
BREAK

9:45 A.M. - 10:45 A.M.
TRACK A1 - OUTDOOR WATER USE AND LANDSCAPES: DIVE INTO THE ISSUES AND POLICIES ROOM 210

How a community prioritizes outdoor water uses can influence a number of community goals such as livability, trees, and shade, habitats and pollinators, stormwater, etc. Further, the phrase "Non-Functional Turf" is echoing throughout the Colorado River Basin – but what does it even mean? Join this panel to hear different perspectives on landscapes, policies, and issues.

***NOTE SESSION A1 AND A2 ARE A TWO-PART SESSION**

MODERATORS:

- Lindsay Rogers, Western Resources Advocates

SPEAKERS:

- Diana Denwood, Aurora Water, CO
- Krista Guerrero, Metropolitan Water District of Southern California, CA
- Kelly Kopp, Utah State University, UT

TRACK B1 - WATER LOSS CONTROL PROGRAMS: TAKING THE NEXT STEPS ROOM C50

Mitigating water loss is a common goal across utilities. Join this session with water loss experts from across the country to learn about some of the most impactful water loss control strategies available to you, including advocating for state policy, accessing critical technical assistance and targeted training, developing a utility team, and how advocating for the resources needed to generate a greater impact.

MODERATOR:

- Andrew Morris, Alliance for Water Efficiency

SPEAKERS:

- Drew Blackwell, Cavanaugh & Associates, NC
- Sarah Hudson, Indiana Finance Authority, IN
- Scott Winter, Colorado Springs Utilities, CO
- Jennifer Walker, National Wildlife Federation, TX

FULL PROGRAM & SESSION DESCRIPTIONS

WEDNESDAY, AUGUST 2

10:45 A.M. - 11:00 A.M.
BREAK

11:00 A.M. - 12:00 P.M.
TRACK A2 - OUTDOOR WATER USE & LANDSCAPES: EXPLORE THE PROGRAMS & STRATEGIES ROOM 210

How are agencies taking action? This session will share highlights from multiple water conservation practitioners operating programs designed to reduce outdoor water use. Learn about different program models, how programs have evolved over time, strategies to overcome common barriers, and special considerations for implementation during a drought. Share your own experiences and snag a new idea to take home.

***NOTE SESSION A1 AND A2 ARE A TWO-PART SESSION**

MODERATORS:

- Victoria Arling, WaterNow Alliance

SPEAKERS:

- Jack Karlin, Turfgrass Water Conservation Alliance, OR
 - Best Failures that Led to a Trade Turf Program
- John Lansden, Moulton Niguel Water District, CA
 - Turf Removal Direct Install – Lessons Learned
- Catherine Moravec, Colorado Springs Utilities, CO
 - Designing Smart Non-Functional Turf Replacement Programs
- Greg Plumb, Marin Water, CA
 - Turf Conversion During a Drought – Help ‘Em or Let ‘Em DIY?
- Steve Villatoro, Austin Water, TX
 - Water Use Compliance: Enforcement, Education, & Equity

TRACK B2 - STATE PERSPECTIVES ON WATER CONSERVATION, DROUGHT, & CLIMATE CHANGE ROOM C50

2022 revealed that no one is immune to drought and the impacts of climate change. The AWE 2022 State Policy Scorecard for Water Efficiency & Sustainability showed how state-level policies across the country can advance water conservation, efficiency, and sustainability in the face of a changing climate, unreliable water supplies, and changing communities. Join this panel to hear from three very different states about how each is tackling climate change, the impacts of drought, and helping their state’s residents and businesses use water wisely.

MODERATOR:

- Andrew Morris, Alliance for Water Efficiency

SPEAKERS:

- Jason Duff, Massachusetts Office of Water Resources, MA
- Shaili Pfeiffer, Wisconsin Department of Natural Resources, WI
- Carol Ward, Arizona Department of Water Resources, AZ

FULL PROGRAM & SESSION DESCRIPTIONS

WEDNESDAY, AUGUST 2

12:00 P.M. - 1:30 P.M. **NETWORKING & LUNCH CAFETERIA**

Embrace a new way of connecting with like-minded colleagues during this networking lunch. Attendees have the power to choose their table based on discussion topics that resonate with their interests. Enjoy lunch, swap stories, exchange ideas, and explore collaborations with your peers.

WATER-RICH REGIONS ROUNDTABLE & LUNCH ROOM 210

This roundtable and working lunch is a time for attendees who represent more "water-rich" regions of North America to come together to discuss the unique challenges and opportunities they face in advancing water efficiency, conservation, and sustainability in their corners of the country. Come prepared to both share your experience and learn from peers.

SPEAKER:

- Peter Mayer, WaterDM & Flume
 - "Exploring Water Use and Efficiency Trends East of the Mississippi"

1:30 P.M. - 2:45 P.M. **TRACK A3 - FOUNDATIONS & FRAMEWORKS FOR THE NEXT FRONTIER:** **BEHAVIOR CHANGE WORKSHOP ROOM 210**

What is behavior change? What behaviors are relevant to water conservation, which ones are utilities able to influence, and which ones are most impactful to overall water use? Learn about community-based social marketing and how one community paused to learn what motivates their residents. Participants will have the opportunity to put these concepts into practice by working together in a group to understand the steps water practitioners can take to implement behavior change strategies in their communities.

MODERATORS:

- Liesel Hans, Alliance for Water Efficiency

SPEAKERS:

- Matt Dickens and Julia Grothe, Santa Clarita Valley Water, CA, Lila Rabinovich, University of Southern California, CA
 - Reaching the Next Tier: Crafting Effective Water Conservation Communications Amidst a Changing Environment, Expanding Audience, and Demonstrated Crises Fatigue
- Beth Livingston, EPA WaterSense Program
 - WaterSense's Guide on Community-Based Social Marketing

TRACK B3 - TOILET TALK: INDOOR WATER USE, LEAKS, & EQUITABLE PROGRAMS ROOM C50

Toilet rebates and indoor-focused programs have been around for decades, and some might assume they have run their course. Yet, others would affirm that they may be having a bit of a renaissance – in part because of the way that they are being used to advance equity among low-to-moderate-income households. Further, agencies are developing partnerships to build trust and create a greater impact. Join us for an engaging session on all things indoor water use, plumbing, and affordability as we seek to address leaks and install efficient fixtures and appliances for everyone. This session is sponsored by Gold-Level Sponsor, the Whirlpool Corporation.

- Amy Weinfurter, WaterNow Alliance
 - A Tale of Two Toilet Rebates: Insights on Developing Innovative Programs

2:45 P.M. - 3:00 P.M. BREAK

3:00 P.M. - 4:00 P.M.

TRACK A4 - EASY BUTTON: ALL ACCESS PASS TO HACKS TO MAKE YOUR LIFE EASIER ROOM 210

We gathered trusted water practitioners in the field to share their best advice with session participants. Consider this your all-access pass to the tips, tricks, and tools for successfully navigating everything from contracting to grant writing to program development to data analysis to GIS and more. Learn from colleagues willing to share their trials and errors over time and contribute your own pearls of wisdom.

MODERATOR:

- Amy Talbot, Regional Water Authority, CA

SPEAKERS:

- Nate Adams, Santa Margarita Water District, CA
- Amy Talbot, Regional Water Authority
- Zach Vernon, Maddaus Water Management

TRACK B4 - DATA TO EMPOWER CUSTOMERS, ENHANCE TARGETING, & AMP UP IMPACT ROOM C50

This “Lightning Round” session will feature a sampling of the ways that agencies are utilizing data for, about, and with customers. Participants of this session will walk away from this Lightning Round feeling better equipped for how most effectively leverage data to inform and achieve program outcomes.

MODERATOR:

- Tia Fleming, California Water Efficiency Partnership

WEDNESDAY, AUGUST 2

TRACK B4 - DATA TO EMPOWER CUSTOMERS ROOM C50 (CONT)

SPEAKERS:

- JC Davis, Las Vegas Valley Water District, NV
 - AMI to Engagement: Converting Timely Usage Data into Real Water Savings
- Laura Elwell, Itineris, GA
 - How Artificial Intelligence (AI) Can Automate Water Conservation Programs
- Cassidy Harding, California Water Service, CA
 - Developing a Scalable Approach to Calculating Efficient Water Use Targets
- Todd Schultz, Yoppify, UT
 - Unlocking Water Conservation: Key Insights and Strategies for Effective Behavior Change

4:00 P.M. - 4:15 P.M. BREAK

4:15 P.M. - 5:00 P.M. MEET THE BOARD: A CONTROVERSIAL CONVERSATION ABOUT CONSERVATION AUDITORIUM

To conclude the first day, we will hear from a few members of AWE's board of Directors. We will delve into their journeys as they share stories of how they discovered their passion for water and their connection to AWE. Next, we will transition to a debate, where our panelists will discuss the future of water efficiency and conservation. But this isn't just a one-way conversation - your voice, your thoughts, your ideas matter! Add to the debate through electronic polling, ensuring that your insights on addressing the urgent water conservation challenges are heard. Immerse yourself in both new and familiar perspectives, gain knowledge, and help shape our collective mission to create a sustainable water future.

TRACK B7 - FUTURE VISIONS FOR CONSERVATION PROGRAMS, NEW DEVELOPMENT, & LONG-TERM PLANNING ROOM C50

You've heard the phrase, "All models are wrong; some are useful". Water planners and agencies have the dual task of assessing past efforts, water demands, and water supplies - while also attempting to plan for and predict an uncertain future. Join this session to hear examples of how different communities' water demands, programs, water supplies, and growth patterns are changing. Explore the drivers of those changes and how they are working to be prepared for the future. This session is sponsored by Gold Sponsor Kohler.

LUNCH

1:30 P.M. - 3:00 P.M.

WATER EFFICIENCY: EXPLORING EQUITABLE & EFFECTIVE SOLUTIONS TO ADDRESS AFFORDABILITY AUDITORIUM

The affordability of water services is a growing concern as utilities are facing pressure to upgrade infrastructure, adapt to climate change, and comply with increasingly stringent regulations, to name a few challenges. Because of these pressures, increases in the cost of drinking water are outpacing increases in the cost of most other goods and services. This session will explore how utility-led water programs are addressing affordability challenges. This session will also demonstrate water efficiency and conservation as an important strategy to mitigate affordability challenges in both the short and long term. The outcomes from this session will inform a Water Research Foundation-funded project working to document emerging utility-led affordability innovations.

MODERATORS:

- Christine Curtis, Pacific Institute

3:00 P.M. - 3:30 P.M.

CLOSING SESSION: FINAL REFLECTIONS & TAKEAWAYS

SPEAKERS:

- Ron Voglewede, Sustainnovation, MI
- Karen Guz, San Antonio Water System, TX

4:00 P.M. - 5:15 P.M.

OPTIONAL FIELD TRIP: H2NOW

Stretch your legs with a walk along the scenic Chicago waterfront for this optional field trip. The group will meet up with staff from H2NOW to learn about an innovative new approach to real-time water quality monitoring. Launched by Current in 2021, the H2NOW platform tests leading-edge sensing and analytic technologies to measure water quality parameters and communicate them with the public in real-time. Attendees will depart the Symposium Lobby around 4:00 pm and walk about 1.5 miles along the river walk, with the tour ending around 5:15 pm. Attendees can either walk back from the Michigan Avenue crossing of the River or head off for their own adventure.

ABOUT THE ALLIANCE FOR WATER EFFICIENCY

The Alliance for Water Efficiency (AWE) is a nonprofit dedicated to the efficient and sustainable use of water across North America. Based in Chicago, AWE advocates for water-efficient products and programs, and provides information and assistance on water conservation efforts. AWE works with more than 500-member organizations, providing benefit to water utilities, business and industry, government agencies, environmental and energy advocates, universities, and consumers.
